

## **BUILDING PERMITS AND INSPECTIONS**

### **Can I get an over-the-counter review of my plans?**

All plans are reviewed by our plan review staff, which makes every attempt to review your plans in a timely manner. However, depending on the project, reviews by other departments and agencies may be required as well. Over-the-counter plan reviews are available for properly documented fences, signs, and some other small projects, which have been prepared with enough information to show conformance with the code(s) and other ordinances of this City and do not require review by other departments or agencies.
